

Aagreet Sinha

Product Designer (UX/UI)

[Bengaluru](#) [7899708812](#) hi@aagreetsinha.com [Portfolio / Website](#) [LinkedIn](#)

Summary

Product Designer with 5 years of design experience, including 1 year leading UX for an enterprise cloud management platform. Specialized in design systems, complex dashboards, and B2B workflows. Former software engineer with strong technical fluency and ability to bridge design, product, and engineering. Currently seeking IC roles in enterprise SaaS.

Experience

OpenUI

Product Design Consultant

Jun 2025 — Present

Bengaluru

- Led product design across 3 client engagements at Open UI, spanning 0 → 1 builds and growth-stage products in B2B SaaS
- Defined end-to-end UX for Cluva.io — a feedback management platform — including IA, core workflows, and dashboards.
- Built design standards and review processes for a 3-person design team, improving delivery consistency and reducing revision cycles on client-facing work

MontyCloud

Senior Product Designer

Apr 2024 – May 2025

Bangalore

- Led UX for a B2B cloud management platform serving 50+ MSPs managing multi-cloud infrastructure
- Built Vision UI, the company's first design system adopted by 9 frontend engineers — established 40+ reusable component patterns, design tokens, and documentation where none existed
- Designed WAFR Insights dashboard, surfacing risk scoring and cost optimization recommendations for AWS workloads
- Standardized audit and remediation workflows, reducing average report generation time from 45 min to 12 min
- Facilitated weekly design critiques and presented to executive leadership to align on design priorities and MVP scope
- Conducted 7+ user interviews with cloud architects and MSP admins
- Synthesized findings from 25+ customer calls into usable insights
- Leveraged AI tools to accelerate prototyping and component documentation workflows
- Mentored 2 design interns on component design and Figma workflows

Independent Consultant (B2B SaaS)

Product Designer

Dec 2022 – Mar 2024

Bangalore (Remote)

- Designed and shipped MVPs for 6 early-stage B2B SaaS and health-tech startups across event-tech, fintech, and civic-tech
- Led end-to-end UX from discovery through developer handoff for a health-tech iOS app (onboarding, scheduling, care plan management)
- Simplified multi-step donation flows from 8 steps to 3, resulting in measurably faster completion in usability testing
- Worked directly with founders and engineering teams to clarify requirements and reduce scope ambiguity pre-development

Brandhero

Product Designer

Jan 2022 – Nov 2022

Bangalore (Remote)

Designed websites and onboarding flows for SaaS and fintech clients

Leap Finance

Sr. Video Editor and Content Strategist

Aug 2020 – Sep 2021

Bangalore (Hybrid)

Led content strategy for student loan campaigns; grew YouTube traffic 60% and retention 34%

Infosys

Senior Systems Engineer

Feb 2016 – Aug 2020

Mysore / Bangalore

Built enterprise Java applications; developed foundations in system thinking and technical problem-solving

Education

NMAMIT, Nitte

B.Tech Computer Science (2012–2016)

10k Designers

Product Design Cohort

Sep 2021 - Dec 2021

Skills

Design Expertise

Design Systems, Enterprise Dashboards, B2B Workflows, Data Visualization, User Research & Testing, AI-Assisted Design Workflows, Wireframing, Prototyping, , Information Architecture
